

RESIDENT STATUS/ADMISSIONS

Background

Jurisdictions have an obligation to provide appropriate educational programs to their resident students. In addition, the School Act requires school systems to accept non-resident pupils in the school requested by the parent if there are sufficient resources and facilities available to accommodate the student.

The District shall enroll all of its resident students and direct them through designated attendance areas to one of its schools, or direct them to a school in another jurisdiction.

The District shall enroll resident students of another District in the school requested by the parent if there are sufficient resources and facilities available to accommodate the student. Application for admission as a non-resident student indicates support for Catholic/Christian values and beliefs as practiced in our schools.

The District shall enroll a resident student of the Alberta Government in one of its schools as requested by the Minister if the student is living in the District.

Procedures

1. Resident students, for the purpose of this administrative procedure, are defined in accordance with Section 44 of the School Act. Residency of a student is determined by:
 - 1.1 Residence of the parent(s)/guardian(s)
 - 1.2 Faith of the parents when both Catholic/Christian and protestant Boards are in existence.

Special education program requirements are outlined in Sections 45, 47, 51, 52, 53 of the School Act.

2. The District shall not charge tuition fees with respect to the enrollment in any of its schools to resident students, resident students of any other District or resident students of the Alberta Government.

The District may charge tuition fees (not to exceed actual cost) to any other individual who attends one of its schools. These fees will be allocated to the appropriate school-based account.

3. Residency of independent students (as defined by the School Act, Section 1(W)) will be determined by where the student resides, rather than where his/her parent(s) reside.

4. Resident students of the District residing in a designated attendance area for a school shall be enrolled in that school and attendance is compulsory if a program offered in that school is suitable for the student. A resident student of the District who resides in a designated attendance area for a school shall be given priority over a student who does not reside in the designated attendance area for that school if there are insufficient resources and facilities to accommodate both students. Transportation will be the responsibility of the parent unless the District has directed a student to a specialized program not offered in the neighborhood school.
5. In the event that a resident student becomes a non-resident student, the District shall not assume responsibility to provide transportation for the student.
6. The District shall enroll a resident student of another District only if there are sufficient resources and facilities to accommodate the student.
7. Adult students who are resident in the District may be admitted to the regular high school program. If they are older than 20 years as of September 1 in the year they attend, a tuition fee will be charged.
8. Requests by non-resident pupils to attend District schools will be made in writing to the Superintendent or designate through completion of the Non-resident Student Application Form, as included in the *Forms Manual*.
9. The Principal, is responsible for determining if there are sufficient resources and facilities to accommodate non-resident students subject to the following criteria:
 - 9.1 Receipt of evidence from the previous non-resident school confirming that specialized supports will not be required.
 - 9.2 A program that is suitable to the educational needs of the student must be available.
 - 9.3 Sufficient qualified staff must be available.
 - 9.4 Sufficient classroom space and learning resources must be available.
 - 9.5 The non-resident student/parent/guardian must:
 - 9.5.1 Attend an interview with the Principal/designate prior to enrollment.
 - 9.5.2 Complete the non-resident student application form.
 - 9.5.3 Give permission to the Principal/designate to contact the previous/current school attended by their child.
10. The Superintendent and Principal must ensure that sufficient resources and facilities are available so that the needs of resident students within each designated attendance area for that school are being met prior to enrolling other students.
11. Applications by non-resident students for district programs are assessed based on space available in the program as well as whether sufficient resources are

available to accommodate the student within the district program and regular programming requirements.

12. If the Superintendent refuses admission to a District school, the decision is final.
13. Levels of non-resident student enrollment will be monitored on an annual basis.
14. In the event that there is some question with regard to residency, the parent, guardian or independent student will be asked to provide proof of guardianship.
