

Vincent J. Maloney Catholic Junior High School

is a vibrant learning community for students in grades seven to nine. Built in 1985, the schools' namesake reflects the leadership of a former superintendent of the district that provides diverse programming for close to 500 students.

This is the second modernization completed on the building and the updates are designed to inspire 21st. Century Learning. There are new student-centred spaces that support Career and Technology Foundations programming, refreshed core learning spaces and enhancements for student wellness and connectivity. This includes the beautiful addition of the Learning Commons. As you walk through the school it is visible that students have options for flexible seating and places to work and learn together.

Thank you to the dedication of the many partners for their support and work on this project including: the Province of Alberta, ONPA Architects, K-Rite Construction, and all the district staff involved.

Special thanks to all those who gathered today to mark this occasion!
