Welcome

It was a pleasure to launch our 150th celebrations at the Little White School House, and to share the rich heritage and story of Catholic education that began in 1864 when the Grey Nuns opened the first school house. Recognizing the Grey Nuns, our pioneers of faith-based education in this province is an important part of our celebrations. Their philosophy placed a great emphasis on developing a moral conscience in our children; 150 years later this remains a foundational piece that attracts many families to our schools today. Our sisters strived for excellence and we are pleased to honor this legacy with outstanding District results once again. For this, we are thankful. Please join in on the celebrations and God Bless!

Noreen Radford, Chair.

Good News

We are pleased to welcome two new elementary schools opening in 2017; one in Morinville and one in St. Albert. As well, V.J. Maloney Junior High and St. Albert Catholic High will be undergoing modernizations.

Once again our District received an outstanding report card from the province showing exceptional results on academic performance. As well, 76% of all high school students are scholarship eligible. Congratulations!
