## **Goals and Objectives**

Goals are broad statements of the major priorities of the system. They assist the Board and administration to discharge their responsibilities. Objectives are more specific statements of the desired outcomes the Division wishes to achieve. In relation to basic education, goals serve several purposes:

1. They identify the distinctive role of the school and its contribution to the total education of youth.
2. They provide purpose and direction to curriculum planning, implementation and evaluation.
3. They enable parents, teachers and the community at large to develop a common understanding of what the schools are trying to achieve.

Society must periodically re-examine the goals of its schools. Changes in emphasis and adjustments may be required from time to time to keep pace with social change. This statement of goals is to direct education for ECS through Grade 12 in Alberta schools. It is the basis from which specific objectives for various subjects and grades shall be developed.

While the school makes a very important contribution to education, it is only one of the agencies involved in the education of youth. The home, the Church, the media, and community organizations are very significant influences on children. It is useful, therefore, to delimit the role of schooling in education. Education refers to all the learning experiences the individual has in interacting with the physical and social environment; it is a continuing and life long process. Schooling which has a more limited purpose refers to the learning activities planned and conducted by formal structures which influence individuals during a specified period.

There is, of course, a very close relationship between schooling and education – the learning which occurs in school influences and is influenced by what is learned outside the school.

The Board supports the provincial goals of education and schooling. In addition, the Board supports the development, adoption and periodic revision of Division goals and objectives. All staff, through the leadership of the Superintendent, are deemed to be agents of the Board in achieving Division goals and objectives.
